### A Beautiful Lie By Irfan Master

An extraordinarily rich debut novel, set in India in 1947 at the time of Partition. Although the backdrop is this key event in Indian history, the novel is even more far-reaching, touching on the importance of tolerance, love and family.

The main character is Bilal, a boy determined to protect his dying father from the news of Partition - news that he knows will break his father's heart. With great spirit and determination, and with the help of his good friends, Bilal persuades others to collude with him in this deception, even printing false pages of the local newspaper to hide the ravages of unrest from his father. All that Bilal wants is for his father to die in peace. But that means Bilal has a very complicated relationship with the truth...

### Editorial Review

#### From School Library Journal

Gr 5-9-It is the summer of 1947 and India is to be partitioned. Tensions are mounting between religious factions and violence is reaching even the smallest villages. Thirteen-year-old Bilal's beloved father is dying, and since he is convinced the news would kill him even more quickly, Bilal decides to lie about the political situation. With the help of his three closest friends, he keeps well-wishers, family friends, even his radical brother at bay, all to "save" his father the grief of knowing the truth. Master's writing is lovely and descriptive. He expertly conveys the poverty of Bilal's village. Readers can smell the mangos in the marketplace, as well as the filth, and taste the dust in their throats. But the tale is not all dark; the author captures the joy of being with friends and family, playing tricks on people, and laughing-all things that people of any socioeconomic status can enjoy and relate to. Since the story is told through Bilal's eyes, readers begin as he does, not completely understanding the reasons for the partition and violence surrounding it. As the tale progresses and readers share his experiences, the situation becomes a bit clearer, though it is never crystalline. The book's pace is slow, perhaps reflecting the pace of life in a poor village. With its unusual historical point of view, this novel is great for thoughtful readers who will give it the consideration it deserves.-Geri Diorio, Ridgefield Library, CT ©(c) Copyright 2011. #### From Booklist

As his father lies dying from cancer, 13-year-old Bilal is afraid that the news of their beloved India's impending partition will hasten his father's death. Bilal vows, with the help of his three best friends, to keep the facts secret from his bapuji. Everybody lies, the boy reasons, but is telling a single lie different from living a lie? As his untruth grows ever more complex and onerous, violence becomes an increasing part of everyday life. Set in 1947, Master's insightful examination of a country at war with itself is made more powerful by young Bilal's point of view. Less realistic is Bilal's attempt to keep the truth from his father; indeed, it requires a willing suspension of disbelief on the part of the reader. However, the setting is so vivid and the boys' friendship so emotionally involving that most readers will overlook any missteps. An engaging debut novel that will also find classroom use. Grades 6-9. --Michael Cart

#### Review

'Another memorable debut novel ... Beautifully told this debut is set in 1940's India at the time of the Partition, with themes of tolerance that still resonate today' The Bookseller 'A challenging but extremely rewarding book dealing with big themes of truth, prejudice, and friendship, but also the simple love of a boy for his father. The Indian setting conjures up a society on the brink of change, rich in period detail and geographical beauty, and the characters are attractive and vividly drawn. A fascinating introduction to a vital moment in history. Though beware - the ending will make you cry' Daily Mail 'This is a refreshing first novel, simply and expertly told. A great debut' Ink Pellet 'Irfan Master has created a richly detailed portrait of India in 1947 and peopled it with a collection of well realised characters, each of them almost strong enough to merit a novel in their own right' Guardian
