### Editorial Review

#### Amazon.com Review

Faerie princess and private detective Meredith Gentry juggles love, sex, intrigue, magic, and more in this witty and sensual novel from Laurell K. Hamilton. Merry has her hands full: she's desperate to conceive a child and thereby claim the Unseelie throne; she's the target of intrigue from both the Seelie and Unseelie Courts; her newest client is an exiled goddess with a secret that could get them all killed; and a hideous fey force that alarms even her formidable lover-warriors is loose in Los Angeles.

*A Caress of Twilight* is infused with Hamilton's characteristic appealing blend of sex, magic, wit, and romantic dilemma. The mystery takes a back seat to the concerns of Faerie power and politics, making the book less balanced, but Merry's growth in leadership and power, along with a bang-up ending, won't leave fans disappointed. Readers new to Hamilton might be advised to start with *A Kiss of Shadows* or the extremely popular Anita Blake series. --Roz Genessee

#### From Publishers Weekly

In the second R-rated outing (after 2000's *A Kiss of Shadows*) from bestseller Hamilton to feature bright and winsome faery princess Meredith Gentry, the unlikely shamus, who runs an L.A. detective agency with a staff of faery musclemen (plus a pet goblin), seems to spend almost as much time pondering her position in the fey world as attending to her client, glamorous film star Maeve Reed, actually a Seelie goddess, who needs Meredith's help in getting pregnant. Meredith does what she can for Maeve, although she has troubles enough of her own in the conception game. As one of two possible heirs to the Unseelie throne, the other being her nasty cousin, Prince Cel, Meredith must produce her own child and then, by faery tradition, marry her partner. It isn't easy, since any father must be kingly material, but our heroine is a game lass, and her failure is not for lack of trying. In an exciting climax, the LAPD Bureau of Human and Fey Affairs summons Meredith to battle a fearsome, crawling, tentacled and slobbering monster, the Nameless, which was too blithely created by opposing faery courts her own, the Unseelie, ruled by her millennium-old aunt, Queen Andais, and the Seelie, ruled by the ruthless and equally ancient King Taranis. More attention to the detective motif might have made the story more fun, but steamy prose and Meredith's obsessive personal conflicts should keep the faithful turning the pages. (Apr. 2)Forecast: With a 10-city author tour, national print advertising and the success of last year's *Narcissus in Chains* and other novels in her Anita Blake vampire series, Hamilton should make another run at the bestseller lists.

#### From Library Journal

If you've had enough of novels with plots that make sense and characters you can relate to, try *A Caress of Twilight*. It's one of the silliest works you'll hear this year, which appears to be an attempt to mix Anne Rice's *Vampire Chronicles* with *Men in Black* and *The Wizard of Oz*. The work focuses on a faerie princess who, with the help of her bodyguards, strives to get pregnant while working as a police consultant in California. Her apparent job is to defend the faeries of Los Angeles from magical monsters. Considering the material, narrator Laural Merlington does a marvelous job, particularly in the erotic, love-making scenes that basically salvage this recording. Buy if you wish to add to your erotica collection.
