After Dark (Ghost Hunters, Book 1) (Harmony) By Jayne Castle

Welcome to Harmony—where the rules are a little different.

Life is tough these days for Lydia Smith, licensed para-archaeologist. Seriously stressed-out from a nasty incident in an alien tomb, she is obliged to work part-time in Shrimpton's House of Ancient Horrors, a very low-budget museum. She has a plan to get her career back on track, but it isn't going well. Stuff keeps happening.

Take the dead body that she discovered in one of the sarcophagus exhibits. Who needed that? Finding out that her new client, Emmett London, is one of the most dangerous men in the city isn't helping matters either. And that's just today's list of setbacks. Here in the shadows of the Dead City of Old Cadence, things don't really heat up until *After Dark*.

Editorial Review

Amazon.com Review

A race of aliens once lived on the future Earth colony called Harmony, leaving behind them the ruins of a vast, beautiful, and mysterious culture that is still protected by the psychic illusion traps and eerie ghosts that they created. Lydia Smith is an archaeologist who can resonate and dissolve the illusions, and those talents, combined with her lack of finances and questionable professional reputation, make her the obvious hire for Emmett London, who is trying to track down a lost antique and the nephew who stole it. Lydia's first consulting job quickly turns dangerous, however, as corpses, ghosts, and illusion traps start popping up--not to mention the rather unprofessional electricity between her and her first client.

In *After Dark*, author Jayne Ann Krentz, writing as Jayne Castle, describes a world that delightfully intertwines futuristic ideas like green-glowing marble, psychic amber, and six-legged pets with earthly characters like penny-pinching bosses, absentee landlords, and mafia wives trying to turn into high-society dames. The writing can feel a bit clunky: "The paranormal ability to resonate with amber and use it to focus psychic energy had begun to appear in the human population shortly after the colonists came through the curtain to settle the planet of Harmony," and the final chapters suffer from a similar lack of finesse in the tying up of loose ends, but Krentz's world is fantastical and fascinating, one that will keep you reading and your imagination soaring.--Nancy R.E. O'Brien

Review

"An appealingly effervescent romance mildly spiced with paranormal fun."—*Publishers Weekly*

"Wonderful futuristic romance."—*BookBrowser*

About the Author

Jayne Castle is a pseudonym for Jayne Ann Krentz, the author of more than fifty *New York Times* bestsellers. She writes futuristic romance novels under the Castle name, contemporary romantic suspense novels under the Krentz name, and historical romance novels under the pseudonym Amanda Quick.
