**The Freedom of the Migrant: Objections to Nationalism** By Vilém Flusser

Vilém Flusser was one of the most fascinating and original European thinkers of the late twentieth century. In this collection of his essays on emigration, nationalism, and information theory, he raises questions about the viability of ideas of national identity in a world whose borders are becoming increasingly arbitrary and permeable. Flusser argues that modern societies are in flux, with traditional linear and textual epistemologies being challenged by global circulatory networks and a growth in visual stimulation. Beyond globalization, Flusser's ideas about communication and identity are rooted in the Judeo-Christian concept of self-determination and self-realization through recognition of the other.

### Editorial Review

#### Review

"A smooth, fluid translation of an excellent collection of essays by this timely and necessary thinker."--  
Andreas Ströhl, editor of Vilém Flusser's *Writings*

"Flusser emerges out of these writings as an engaging and playful thinker, one who moves deftly from deeply personal reflections to abstract theory often within the same paragraph. This is at once part of the charm and the difficulty of his writing; his simple observations gesture toward rich layers of meaning that lie beneath the surface awaiting excavation."--*Canadian Literature*
