

The Semantics and Metaphysics of Natural Kinds (Routledge Studies in Metaphysics)

From Routledge

The Semantics and Metaphysics of Natural Kinds (Routledge Studies in Metaphysics) From Routledge

Essentialism--roughly, the view that natural kinds have discrete essences, generating truths that are necessary but knowable only *a posteriori*--is an increasingly popular view in the metaphysics of science. At the same time, philosophers of language have been subjecting Kripke's views about the existence and scope of the necessary *a posteriori* to rigorous analysis and criticism. Essentialists typically appeal to Kripkean semantics to motivate their radical extension of the realm of the necessary *a posteriori*; but they rarely attempt to provide any semantic arguments for this extension, or engage with the critical work being done by philosophers of language. This collection brings authors on both sides together in one volume, thus helping the reader to see the connections between views in philosophy of language on the one hand and the metaphysics of science on the other. The result is a book that will have a significant impact on the debate about essentialism, encouraging essentialists to engage with debates about the semantic presuppositions that underpin their position, and, encouraging philosophers of language to engage with the metaphysical presuppositions enshrined in Kripkean semantics.

Editorial Review

Review

'This is a collection of cutting-edge essays on natural kinds and natural kind terms. It at once makes progress on and serves as an advanced introduction to the important topics it addresses. It contains plenty of interest to both the expert and the non-expert on natural kinds. Supplemented by relevant background material, it would serve excellently as the main text for a semester-long graduate or advanced undergraduate seminar on its topics.'

– *Notre Dame Philosophical Review*

About the Author

Helen Beebee is Professor of Philosophy at the University of Birmingham, UK.

Nigel Sabbarton-Leary is completing his PhD at the University of Birmingham, UK

Users Review

From reader reviews:

Lisa Rice:

What do you regarding book? It is not important to you? Or just adding material when you need something to explain what yours problem? How about your time? Or are you busy man? If you don't have spare time to accomplish others business, it is give you a sense of feeling bored faster. And you have free time? What did you do? Everyone has many questions above. They need to answer that question since just their can do this. It said that about e-book. Book is familiar in each person. Yes, it is proper. Because start from on jardín de infancia until university need this kind of The Semantics and Metaphysics of Natural Kinds (Routledge Studies in Metaphysics) to read.

Clifford Jones:

The e-book with title The Semantics and Metaphysics of Natural Kinds (Routledge Studies in Metaphysics) has a lot of information that you can find out it. You can get a lot of gain after read this book. This particular book exist new knowledge the information that exist in this book represented the condition of the world right now. That is important to yo7u to know how the improvement of the world. This particular book will bring you within new era of the glowbal growth. You can read the e-book on your smart phone, so you can read it anywhere you want.

Elton Williams:

Playing with family in a very park, coming to see the sea world or hanging out with pals is thing that usually you may have done when you have spare time, subsequently why you don't try issue that really opposite

from that. A single activity that make you not sensation tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of knowledge. Even you love The Semantics and Metaphysics of Natural Kinds (Routledge Studies in Metaphysics), you can enjoy both. It is good combination right, you still wish to miss it? What kind of hang type is it? Oh occur its mind hangout folks. What? Still don't obtain it, oh come on its called reading friends.

Manuel Rose:

Many people spending their moment by playing outside using friends, fun activity using family or just watching TV 24 hours a day. You can have new activity to pay your whole day by reading through a book. Ugh, you think reading a book can definitely hard because you have to use the book everywhere?
