From School Library Journal

Grade 6-10-Background information on the history and culture of the ancient port is presented in the format of a guidebook. The breezy, entertaining chapters focus on topics that might interest visitors-weather, food and lodging, shopping, sightseeing, and side trips. There are a few maps (including a limited street map), special topic boxes highlighting related topics, and quotes from primary sources-actual observations from ancient "tourists" and other contemporaries. This well-researched resource wraps up with a lengthy bibliography and an annotated list of further reading. Despite its rather bland black-and-white photographs and reproductions, this well-written, easy-to-understand text will be a useful addition.

### **Review**

"In the format and tone of today's travel guides, the present-tense text is engaging and friendly. The plentiful photographs, reproductions, diagrams, and maps interspersed throughout are mostly black and white. A serviceable addition...for students."

"This is an enjoyable approach to history and definitely succeeds in transporting students to another place and time."

"This series is written in the style of a tourist's guidebook, each chapter dealing with a particular topic of interest to a tourist. Modern distances, temperature units, and other measurements are used, though to make the facts easier for students to understand. A lot of information is packed into this slim book's 112 pages. In fact, nearly every page of the book has an illustration or a sidebar. Recommended."
