### Editorial Review

From the Back Cover

#### Explore a ton of powerful Fedora Linux commands

This handy, compact guide teaches you to use Fedora Linux as the experts do: from the command line. Try out over 1000 commands to find and get software, monitor system health and security, and access network resources. Apply skills you learn from this book to use and administer desktops and servers running Fedora, CentOS, Red Hat Enterprise Linux, or any other Linux distribution.

#### Expand your Linux expertise in these and other areas:

- Using the shell
- Finding online software
- Working with files
- Playing with music and images
- Administering file systems
- Backing up data
- Checking and managing running processes
- Accessing network resources
- Handling remote system administration
- Locking down security

#### About the Author

**Christopher Negus** is the author of the bestselling *Fedora and Red Hat Linux Bibles*, *Linux Toys II*, *Linux Troubleshooting Bible*, and *Linux Bible 2008 Edition*. He is a member of the Madison Linux Users Group. Prior to becoming a full-time writer, Chris served for eight years on development teams for the Unix operating system at AT&T, where Unix was created and developed. He also worked with Novell on Unix development and Caldera.

**Francois Caen** hosts and manages business application infrastructures through his company Turbosphere LLC. As an open-source advocate, he has lectured on OSS network management and Internet services, and served as president of the Tacoma Linux User Group. Francois is a Red Hat Certified Engineer (RHCE).

### Users Review

#### From reader reviews:

##### **John Charlie:**

Book is definitely written, printed, or outlined for everything. You can learn everything you want by a guide. Book has a different type. As we know that book is important point to bring us around the world. Alongside that you can your reading ability was fluently.
