"... one of the important historical documents of our time." - Orville Prescott, The New York Times (January 19, 1949) "[Trial and Error] is likely to be read for many years to come as an authoritative exposition of the Zionist movement ... records eye-witness accounts of so many crucial events and reflects so many deep insights that it is certain to become of permanent value to the scholar and a delight to the general reader." - Salo Baron, The New York Times (January 23, 1949) "There are four angles from which one can approach this book. One can take it as a history of Zionism during the last seventy years... a record of personal endeavour triumphant over obstacles and dissension... a sad commentary upon human achievement, when eventual triumph comes at a date, and in circumstances, which rob it of its full savour... the self-portrait of a most remarkable man." - Harold Nicolson, The Observer (March 27, 1949) Chaim Weizmann's autobiography is a highly personal account of his life in the Zionist movement. Weizmann recounts his role in the creation of what would become Israel's leading scientific institutions, the Hebrew University, the Weizmann Institute of Science and the Technion, including his fundraising efforts in Europe and in the United States on their behalf and for other Zionist initiatives. He became the first President of Israel, and died in office in 1952.
