The Cambridge History of Western Music Theory (The Cambridge History of Music) From Thomas Street Christensen

The Cambridge History of Western Music Theory is the first comprehensive history of Western music theory to be published in the English language. A collaborative project by leading music theorists and historians, the volume traces the rich panorama of music-theoretical thought from the Ancient Greeks to the present day. Richly enhanced with illustrations, graphics, examples and cross-citations, as well as being thoroughly indexed and supplemented by comprehensive bibliographies, this book will be an invaluable resource for

students and scholars alike.

Editorial Review

Review

"This first single-volume history of music theory in English is a significant addition to literature about music. [...] It should be part of all academic music collections" Choice

"[This] work is an extremely valuable contribution to the history of music theory...the essays are of high quality, and the scholarship is impeccable...Nearly every reader will find something of value herein. The book can serve both as a reference work and as a snapshot of current theoretical opinion. It belongs on the shelf of every scholar who has a serious interest in music theory and its development." Isis

This remarkable book not only offers the reader a detailed account of the entire history of theoretical writing about Western music from the ancient Greeks to modern times, but also provides an incisive critique of the original objectives and ultimate significance of such writing. The various contributors are all specialists well able to encapsulate as well as clarify the essence of complex materials. In addition, the excellent selection of plates, tables and examples, coupled with comprehensive bibliographies, provides rich and vivid contexts for subject-matter that is never merely abstract, but satisfyingly linked to the particulars of musical works. All teachers, researchers and students who take music seriously will find The Cambridge History of Western Music Theory enormously stimulating.--Arnold Whittall, Professor Emeritus of Music Theory & Analysis, King's College London

About the Author

Thomas Christensen is Professor of Music and the Humanities at the University of Chicago.

Users Review

From reader reviews:

Bradley Loy:

This book untitled The Cambridge History of Western Music Theory (The Cambridge History of Music) to be one of several books that will best seller in this year, that's because when you read this publication you can get a lot of benefit upon it. You will easily to buy this particular book in the book retailer or you can order it by using online. The publisher of the book sells the e-book too. It makes you quicker to read this book, as you can read this book in your Cell phone. So there is no reason to you personally to past this reserve from your list.

Jackie Gonzalez:

The reason? Because this The Cambridge History of Western Music Theory (The Cambridge History of Music) is an unordinary book that the inside of the e-book waiting for you to snap the idea but latter it will surprise you with the secret it inside. Reading this book adjacent to it was fantastic author who else write the book in such amazing way makes the content inside easier to understand, entertaining way but still convey the meaning thoroughly. So , it is good for you for not hesitating having this any longer or you going to regret it. This unique book will give you a lot of rewards than the other book include such as help improving

your skill and your critical thinking method. So , still want to delay having that book? If I have been you I will go to the publication store hurriedly.

Brandon Adams:

This The Cambridge History of Western Music Theory (The Cambridge History of Music) is great e-book for you because the content and that is full of information for you who also always deal with world and also have to make decision every minute. This specific book reveal it data accurately using great coordinate word or we can say no rambling sentences within it. So if you are read that hurriedly you can have whole data in it. Doesn't mean it only gives you straight forward sentences but challenging core information with attractive delivering sentences. Having The Cambridge History of Western Music Theory (The Cambridge History of Music) in your hand like getting the world in your arm, info in it is not ridiculous 1. We can say that no book that offer you world throughout ten or fifteen minute right but this book already do that. So , this can be good reading book. Heya Mr. and Mrs. hectic do you still doubt which?

Jason Scott:

That e-book can make you to feel relax. This book The Cambridge History of Western Music Theory (The Cambridge History of Music) was colorful and of course has pictures on there. As we know that book The Cambridge History of Western Music Theory (The Cambridge History of Music) has many kinds or category. Start from kids until adolescents. For example Naruto or Private eye Conan you can read and think you are the character on there. So , not at all of book are generally make you bored, any it makes you feel happy, fun and rest. Try to choose the best book for yourself and try to like reading which.
