The Divine Lawmaker: Lectures on Induction, Laws of Nature, and the Existence of God By John Foster

John Foster presents a clear and powerful discussion of a range of topics relating to our understanding of the universe: induction, laws of nature, and the existence of God. He begins by developing a solution to the problem of induction - a solution that involves the postulation of laws of nature, as forms of natural necessity. He then offers a radically new account of the nature of such laws and the distinctive kind of necessity they involve. Finally, he uses this account as the basis for an argument for the existence of God as the creator of the laws and the universe they govern. *The Divine Lawmaker* is bold and original in its approach, and rich in argument.
