The Basic Code of the Universe: The Science of the Invisible in Physics, Medicine, and Spirituality By Massimo Citro M.D.

Explains the universal information code connecting every person, plant, animal, and mineral and its applications in science, health care, and cosmic unity

- Examines research on consciousness, quantum physics, animal and plant intelligence, emotional fields, Kirlian photography, and the effects of thoughts, emotions, and music on water
- Reveals the connections between the work of Ervin Laszlo on the Akashic field, Rupert Sheldrake on morphogenetic fields, Richard Gerber on vibrational medicine, and Masaru Emoto on the memory of water

DNA dictates the physical features of an organism. But what dictates *how* something grows--from the division of cells in a human being to the fractal patterns of a crystal?

Massimo Citro reveals that behind the complex world of Nature lies a basic code, a universal information field--also known as the Akashic field, which records all that was, is, and will be--that directs not only physical development and behavior but also energetic communication and interactions among all living and non-living things. The author examines research on consciousness, quantum physics, animal and plant intelligence, the power of intention, emotional fields, Kirlian photography, and the effects of thoughts, emotions, and music on water. Linking the work of Ervin Laszlo on the Akashic field, Rupert Sheldrake on morphogenetic fields, Richard Gerber on vibrational medicine, and Masaru Emoto on the memory of water, Citro shows how the universal information field connects every person, plant, animal, and mineral--a concept long known by shamans and expounded by perennial wisdom. Putting this science of the invisible to practical use, he explains his revolutionary system of vibrational medicine, known as TFF, which uses the information field to obtain the benefits of natural substances and medications in their "pure" informational form, offering side-effect-free remedies for health and well-being.

“By crystallizing the theories of such thinkers as Aristotle, Newton, Einstein, and Böhm and covering such diverse topics as homeopathy, DNA, and information theory, the fundamental structure of matter and energy, the curious properties of water, and holographic paradigms, Dr. Citro has penned a profound work that teaches the reader about both the limits of perception and its vast possibilities. This is the kind of book that gets the mental wheels to spin--a fine accomplishment, indeed!” (*Marc J. Seifer, Ph.D., author of Transcending the Speed of Light: Consciousness & Quantum Physics an*)

“*The Basic Code of the Universe* is ‘two books in one’ and contains important and in some respects essential knowledge. On the one hand it demonstrates that the neglected ‘submerged’ side of things can be experimentally verified in ways that can make a significant contribution to our health and well-being. And on the other hand it provides a cogent exposition of the new scientific paradigm that can account for the observed facts, a paradigm that changes our most basic understanding of the fundamental nature of the universe, and of all things in it. NEW SCIENCE / SPIRITUALITY

DNA dictates the physical features of an organism. But what dictates *how* something grows--from the division of cells in a human being to the fractal patterns of a crystal?

Massimo Citro reveals that behind the complex world of Nature lies a basic code, a universal information field--also known as the Akashic field, which records all that was, is, and will be. This basic code directs not only physical development and behavior but also energetic communication and interactions among all living and non-living things. The author examines re-search on consciousness, quantum physics, animal and plant intelligence, the power of intention, emotional fields, Kirlian photography, and the effects of thoughts, emotions, and music on water. Linking the work of Ervin Laszlo on the Akashic field, Rupert Sheldrake on morphogenetic fields, Richard Gerber on vibrational medicine, and Masaru Emoto on the memory of water, Citro shows how the universal information field connects every person, plant, animal, and mineral--a concept long known by shamans and expounded by perennial wisdom. Putting this science of the invisible to

practical use, he explains his revolutionary system of vibrational medicine, known as TFF (Transfer Pharmacological Frequency), which uses the information field to obtain the benefits of natural substances and medications in their “pure” informational form, offering side-effect-free remedies for health and well-being.

MASSIMO CITRO, M.D., is a medical doctor specializing in psychotherapy and the discoverer of pharmacological frequency transfer (TFF). He is a member of the Club of Budapest, the founder and director of the Alberto Sorti Research Institute (IDRAS), and also has a degree in literature. He lives in Turin, Italy.
