The Bonehunters: Book Six of The Malazan Book of the Fallen By Steven Erikson

The Seven Cities Rebellion has been crushed. Sha'ik is dead. One last rebel force remains, holed up in the city of Y'Ghatan and under the fanatical command of Leoman of the Flails. The prospect of laying siege to this ancient fortress makes the battle-weary Malaz 14th Army uneasy. For it was here that the Empire's greatest champion Dassem Ultor was slain and a tide of Malazan blood spilled. A place of foreboding, its smell is of death.

But elsewhere, agents of a far greater conflict have made their opening moves. The Crippled God has been granted a place in the pantheon, a schism threatens and sides must be chosen. Whatever each god decides, the ground-rules have changed, irrevocably, terrifyingly and the first blood spilled will be in the mortal world.

A world in which a host of characters, familiar and new, including Heboric Ghost Hands, the possessed Apsalar, Cutter, once a thief now a killer, the warrior Karsa Orlong and the two ancient wanderers Icarium and Mappo--each searching for such a fate as they might fashion with their own hands, guided by their own will. If only the gods would leave them alone. But now that knives have been unsheathed, the gods are disinclined to be kind. There shall be war, war in the heavens. And, the prize? Nothing less than existence itself...

Here is the stunning new chapter in Steven Erikson magnificent Malazan Book of the Fallen--hailed as an epic of the imagination and acknowledged as a fantasy classic in the making.

Editorial Review

From Publishers Weekly

The weighty and grim sixth installment of Erikson's Malazan Book of the Fallen (chronologically following 2006's *House of Chains*, with references to 2007 tie-in *Midnight Tides*) is named for a newly minted company in the Malazan 14th Army, forged in a daring and nearly fatal effort to escape a city destroyed by fire by burrowing through its skeletal underbelly. The Bonehunters' return from the dead is a theme that appears throughout this volume, as the prophetess Sha'ik dies and is reborn as a plague maiden, warriors recover from hideous wounds, and seer Ganoes Paran strikes a bargain with the dread god Hood that just might end up saving the world. Erikson brings the bulk of his enormous cast together in one volume for the first time, an effort designed to keep fans engaged as myriad plot lines tangle and sprawl over an increasingly bleak and war-ravaged landscape. The fourth Malazan Book of the Fallen is aptly titled. The Malazan 14th Army warily combs the ruins of the Seven Cities Rebellion for what may be left of its dead, meanwhile straining what's left of its morale. The Crippled God has joined the pantheon, and at least half his numerous fellow deities are trying to expel him. A war of the gods impends, and while it will cost the usual high price in collateral damage among humans, Erikson will handle it with originality and strong impact, given that even the sympathetic characters are becoming people you wouldn't want holding your IOUs. Review

"Truly epic in scope., Erikson has no peer when it comes to action and imagination, and joins the ranks of Tolkien and Donaldson in his mythic vision and perhaps then goes one better."--SF Site

"Rare is the writer who so fluidly combines a sense of mythic power and depth of world with fully realized characters and thrilling action, but Steven Erikson manages it spectacularly."--Michael A. Stackpole

"Extraordinarily enjoyable . . . Erikson is a master of lost and forgotten epochs, a weaver of ancient epics."--Salon.com
