Editorial Review

Review

"Any library that does not have a copy of Basic Research Methods for Librarians ought to acquire this edition, and many library schools will want to put it on the list of required readings. It remains the best book on its subject." - The Australian Library Journal "Basic Research Methods for Librarians is well organized and thorough in discussing the many types and aspects of research....[a] solid book on library research." - Journal of the American Society for Information Science"

About the Author

RONALD R. POWELL is Professor in the Library and Information Science Program at Wayne State University. Prior to becoming a library and information science educator, he served as a university librarian and college library director. Powell has taught, conducted research, and published in the areas of research methods, collection development, bibliographic instruction, academic libraries, the measurement and evaluation of library resources and services, and education for librarianship. His other books include *Basic Reference Sources* (with Margaret Taylor), *Qualitative Research in Information Management* (with Jack Glazier), and *The Next Library Leadership* (with Peter Hernon and Arthur Young).

LYNN SILIPIGNI CONNAWAY is a Consulting Research Scientist at the OCLC Office of Research. Her current research projects include the identification and comparison of circulation and interlibrary loan patterns and library collections and WorldCat data mining to facilitate library decision making. She is the co-investigator on an IMLS-funded project to investigate the information-seeking behaviors of faculty, graduate students, and undergraduates from 44 central Ohio colleges and universities. She was formerly the Vice President of Research and Library Systems at netLibrary, a Division of OCLC, served as the Director of the Library and Information Services Department at the University of Denver, and was on the on the faculty of the School of Library and Information Science at the University of Missouri, Columbia.

Users Review

From reader reviews:

Angela Jones:

Nowadays reading books become more and more than want or need but also be a life style. This reading behavior give you lot of advantages. The huge benefits you got of course the knowledge the actual information inside the book that will improve your knowledge and information. The info you get based on what kind of publication you read, if you want get more knowledge just go with education books but if you want really feel happy read one together with theme for entertaining including comic or novel. The Basic Research Methods for Librarians, 4th Edition (Library and Information Science Text) is kind of e-book which is giving the reader unforeseen experience.

Jonathan Zahn:

Information is provisions for those to get better life, information these days can get by anyone from everywhere. The information can be a knowledge or any news even a problem. What people must be consider if those information which is within the former life are challenging to be find than now's taking seriously which one is appropriate to believe or which one the resource are convinced. If you receive the unstable resource then you obtain it as your main information it will have huge disadvantage for you. All of those possibilities will not happen throughout you if you take Basic Research Methods for Librarians, 4th Edition (Library and Information Science Text) as the daily resource information.

Milton Hill:

The e-book untitled Basic Research Methods for Librarians, 4th Edition (Library and Information Science Text) is the reserve that recommended to you to study. You can see the quality of the guide content that will be shown to a person. The language that creator use to explained their way of doing something is easily to understand. The author was did a lot of research when write the book, to ensure the information that they share for you is absolutely accurate. You also will get the e-book of Basic Research Methods for Librarians, 4th Edition (Library and Information Science Text) from the publisher to make you more enjoy free time.

Kimberly Foley:

Precisely why? Because this Basic Research Methods for Librarians, 4th Edition (Library and Information Science Text) is an unordinary book that the inside of the e-book waiting for you to snap the idea but latter it will jolt you with the secret that inside. Reading this book alongside it was fantastic author who have write the book in such amazing way makes the content within easier to understand, entertaining approach but still convey the meaning totally. So , it is good for you because of not hesitating having this ever again or you going to regret it. This unique book will give you a lot of advantages than the other book have got such as help improving your skill and your critical thinking way. So , still want to postpone having that book? If I ended up you I will go to the e-book store hurriedly.
