## Characters and Blocks of Finite Groups (London Mathematical Society Lecture Note Series) By Gabriel Navarro

This is a clear, accessible and up to date exposition of modular representation theory of finite groups from a character-theoretic viewpoint. After a short review of the necessary background material, the early chapters introduce Brauer characters and blocks and develop their basic properties. The next three chapters study and prove Brauer's first, second and third main theorems in turn. The author then applies these results to prove a major application of finite groups, the Glauberman  $Z^*$ -theorem. Later chapters examine Brauer characters in more detail. Navarro also explores the relationship between blocks and normal subgroups and discusses the modular characters and blocks in  $p$ -solvable groups. Finally, he studies the character theory of groups with a Sylow  $p$ -subgroup of order  $p$ . Each chapter concludes with a set of problems. The book is aimed at graduate students with some previous knowledge of ordinary character theory, and researchers studying the representation theory of finite groups.

### **Editorial Review**

#### **Review**

"features good organization, clear and detailed proofs, and good exercises...a strong pedagogical work and a worthy sequel to Isaacs' book on ordinary character theory." *Bulletin of the AMS*

"...a wealth of deep and interesting results which cannot be found in other textbooks...The book is very well written...it contains many jewels otherwise spread throughout the literature." *Mathematical Reviews*

### **Users Review**

#### **From reader reviews:**

##### **Tod Espitia:**

Have you spare time for just a day? What do you do when you have far more or little spare time? That's why, you can choose the suitable activity regarding spend your time. Any person spent all their spare time to take a go walking, shopping, or went to often the Mall. How about open or read a book allowed Characters and Blocks of Finite Groups (London Mathematical Society Lecture Note Series)? Maybe it is for being best activity for you. You realize beside you can spend your time using your favorite's book, you can cleverer than before. Do you agree with its opinion or you have other opinion?

##### **Janette Collins:**

Reading a publication can be one of a lot of exercise that everyone in the world adores. Do you like reading book and so. There are a lot of reasons why people like it. First reading a e-book will give you a lot of new data. When you read a e-book you will get new information since book is one of various ways to share the information or maybe their idea. Second, studying a book will make you more imaginative. When you studying a book especially tale fantasy book the author will bring you to imagine the story how the people do it anything. Third, it is possible to share your knowledge to other individuals. When you read this Characters and Blocks of Finite Groups (London Mathematical Society Lecture Note Series), you are able to tells your family, friends in addition to soon about yours reserve. Your knowledge can inspire others, make them reading a e-book.

##### **Jeff Sanchez:**

The publication with title Characters and Blocks of Finite Groups (London Mathematical Society Lecture Note Series) has a lot of information that you can understand it. You can get a lot of advantage after read this book. This kind of book exist new understanding the information that exist in this e-book represented the condition of the world at this point. That is important to you to be aware of how the improvement of the world. This book will bring you throughout new era of the internationalization. You can read the e-book on your own smart phone, so you can read the idea anywhere you want.

**Mario Davis:**

Some individuals said that they feel weary when they reading a guide. They are directly felt it when they get a half elements of the book. You can choose often the book Characters and Blocks of Finite Groups (London Mathematical Society Lecture Note Series) to make your current reading is interesting. Your own skill of reading expertise is developing when you similar to reading. Try to choose straightforward book to make you enjoy to read it and mingle the idea about book and examining especially. It is to be initially opinion for you to like to open up a book and learn it. Beside that the guide Characters and Blocks of Finite Groups (London Mathematical Society Lecture Note Series) can to be a newly purchased friend when you're really feel alone and confuse in what must you're doing of this time.
