Notes on Canine Internal Medicine By Edward Hall, Kate Murphy, Peter Darke

Notes on Canine Internal Medicine is one of the first books in an exciting new series specifically designed, through an accessible note-based style, to ensure veterinarians and students have quick and easy access to the most up-to-date clinical and diagnostic information.

Knowledge about canine internal medicine has developed considerably since the previous edition of *Notes on Canine Internal Medicine*. This new edition not only details the expansions in knowledge in this complex area of veterinary medicine, but, continuing in the style of the previous editions, it acts as an instant subject reference to aid in the diagnosis and management of disease in dogs.

This edition includes:

- Differential diagnosis lists based on presenting complaint, physical problem and laboratory abnormality
- Detailed information on diseases relating to each organ system
- Easy to reference sections such as clinical signs, investigative methods, definitive diagnostic tests and treatment
