Editorial Review

Review

"Among my favourite books, Timing for Animation (Focal Press), by Harold Whitaker and John Halas ranks high. Originally written in 1981 (and newly revised in 2009) this slim volume presents a thorough analysis of the many kinds of timing issues one encounters in producing a narrative style animated film. Timing on Bar Sheets, Movement and Caricature, Newton's Laws of Motion, Objects Thrown Through the Air, Timing a Slow Action, Timing a Fast Action, Timing to Suggest Weight and Force... these are only a few of the many chapters included. A thoroughly compiled manual, it's an old and current favourite."--Animation World Network

About the Author

Known as the "father of animation" and formerly of Halas and Batchelor Animation unit, John produced over 2000 animations, including the legendary "Animal Farm" and the award winning "Dilemma". He was also the founder and president of the ASIFA and former Chairman of the British Federation of Film Societies.

BAFTA-nominated professional animator and educator for 40 years, many of his students number among today's most outstanding animation artists.

Tom Sito is an Adjunct Professor of Animation at USC, Woodbury College, and UCLA and has written numerous articles for Animation Magazine and Animation World Network.
