Editorial Review

Review

“This widely expanded update to the original 2004 edition defines nearly every facet of contemporary life--from arts, grammar, mythology and culture to science, economics, and geopolitical issues. Though bearing an authority and informational wealth that might rival the voluminous Oxford Dictionary of English, this surprisingly manageable volume is organized alphabetically by subject and contains thousands of highly accessible essays, tables, and lists, all composed by *New York Times* field experts. It also includes an introduction by longtime "On Language" columnist and Pulitzer Prize winner William Safire. An essential background reference for almost every subject: highly recommended for all public libraries.” *Library Journal*

“I wish I'd had this book 25 years ago. It is certain to become an indispensable tool for fact fanatics.” *Bill Bryson, author of A Short History of Nearly Everything*

“In short, this is the largest, most up-to-date and affordable one volume desk reference available today and is an absolute must for every home, dorm room and library.” *Tucson Citizen*

About the Author

The New York Times is a daily newspaper published in New York City and distributed internationally. Founded in 1851, the newspaper has won 95 Pulitzer Prizes, more than any other newspaper.

Users Review
