BSAVA Manual of Canine Practice: A Foundation Manual (BSAVA British Small Animal Veterinary Association) By Tim Hutchinson, Ken Robinson

Authored by veterinarians with many years' experience in general practice, the *BSAVA Manual of Canine Practice* provides the first port of call for the busy small animal practitioner faced with uncertainty over a new case.

The development over the last 20 years of a range of formal specialist veterinary qualifications has produced a significant surge in the range and depth of knowledge in canine practice. Concise answers to common questions that occur in consulting rooms are becoming harder to find; this book swings the balance back to the practitioner. As well as traditional systems-based medicine, this Manual also provides information on the arts of practice such as consultation technique and dealing with common but testing situations. In the clinical presentations section of the book, first line approaches are given in a problem-oriented setting with a significant focus on the nose-to-tail physical examination, a detailed clinical history and common, readily available, diagnostic tests.

Editorial Review

Review

"Written by vets with years of experience in general practice, this 'Foundation Manual' is the first place a busy practitioner should turn to when a puzzling new case presents." (*California Bookwatch*, 2016)

"this book will be an invaluable reference for veterinary students and new or recent graduates. Although it is not exhaustive, it is infinitely useful, and it is a book that I wish had been given to me on my first day in private practice." (*Journal of the American Veterinary Medical Association* 2016)
