The introductions to each section provide a map through the discipline. Michael Martin is Professor of Philosophy at Boston University. Lee C. McIntyre is Assistant Professor of Philosophy at Colgate University. Sections cover: Explanation, Prediction, and Laws. Interpretation and Meaning. Rationality. Functional Explanation. Reductionism, Individualism, and Holism. Objectivity and Values. Problems of the Special Sciences. Commissioned articles: Taylor on Interpretation and the Sciences of Man Michael Martin. Editorial Review

There has been no satisfactory anthology in the philosophy of social science available in the last decade and a half. This anthology will solve the problem.

This is a substantial and comprehensive collection in the philosophy of social science. It includes many of the classic articles that any course in the philosophy of social science would naturally want to consider, and it offers a rich selection of work published in this field in the last ten years.
